
Summary Care Record

How will Summary Care Records help me?

- Healthcare staff in other hospitals/medical services will have quicker access to information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines you have had.
- This means they can provide you with safer care during an emergency, when your GP practice is closed or when you are away from home in another part of England

What do I do now?

If you are happy for us to make a Summary Care Record for you tick the box and we will automatically make one for you.

If you do not want us to make a Summary Care Record for you, please tick the box.

How will you protect my confidentiality?

By law, everyone working for us or on our behalf must respect your confidentiality and keep all information about you secure.

Where can I get more information?

NEW PATIENT QUESTIONNAIRE

Please note the following:

Please read the questions overleaf and complete as fully as possible. It may take several weeks until your records arrive at the Practice, therefore, we would be grateful if you could fill out the following information to continue your medical care

If you are on regular medication please provide a repeat prescription tear off slip from your previous GP. You may be asked to make an appointment with a doctor before a repeat prescription can be issued.

Please make an appointment with our Practice Nurse for a 'New Patient Check' when you hand this form in to the reception.

If you have any outstanding hospital appointments please advise the hospital that you have changed your doctor, name and address (if applicable).

If you are a Carer (for example you provide care for someone who is physically or mentally impaired) please ask at reception for a Carers Pack. This provides you with information that may help you with this.

For any other information on the Practice and the services offered please go to our website.
